

TRELLISGUARD STEEL GATES

TrellisGuard S1000 Steel Expandable Security Gates are an affordable security solution for both doors and windows.

Made from durable carbon steel, these tamper-proof gates feature double uprights that protect moving parts while enhancing strength.

- Double inverted locking system with single key entry
- Keyless slam lock
- 12 x 12mm upright design
- Low profile anti-bottom track
- Glass filled Nylon inserts in the uprights for smooth operation
- 22 Standard colour options available
- Powder-coated and electro galvanized
- Aluminium lock keep, back channel, top and bottom tracks
- No exposed open steel
- Chemically anchored (Optional)
- 3-year corrosion guarantee (inland)
- 1-year corrosion guarantee if installed on the inside (coastal)
- 1-year corrosion guarantee if installed on the outside (coastal)
