

MOZZIGUARD INSECT SCREENS

SheerGuard's MozziGuard Screens have been designed with a unique patented corner junction system and custom extruded profiles powder-coated in aluminium - both stylish and robust, protecting your home from mosquitoes, flies and snakes.

The mesh used on the MozziGuard Screens is made from an interwoven fiberglass mesh and coated with PVC, ensuring a strong product that is corrosion and UV-resistant.

SheerGuard's MozziGuard Screens are custom designed for your property's needs and also reduces dust while allowing airflow and keeping pests out.
