

SHEERGUARD SA™

your clear security solution

MESHGUARD GATES

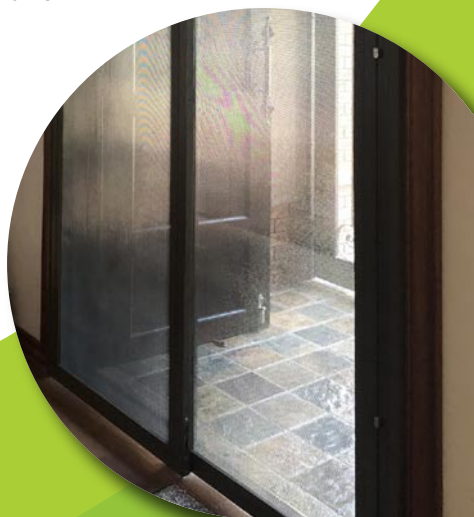

MeshGuard Gates are manufactured using high strength aluminium alloys and stainless steel clear mesh.

This multipurpose, clear security and insect solution offers options to secure sliding doors, hinge openers, windows and sliding windows keeping walking, crawling and flying intruders from entering.

Fixed panels are also available as mesh or fly-screens for all home, commercial and industrial applications.

- SABS approved T8 hardened aluminium for structural frame
- 10 year guarantee on frame structure
- Frame powder coated to the colour of your choice
- 5 year guarantee on powder coating
- Mesh always painted black
- Sliding panel options come with slam lock or dead lock
- Hinge options come with slam, dead lock combination
- Manufactured according to specification
- Corrosion and rust resistant
- Strong and durable
- Modern, stylish appearance
- Maintenance free
