

SECURE SHUTTERS

Interior and exterior shutters are the most beautiful window and door treatment choices for the South African climate.

Exquisitely finished, interior shutters protect against the wind and cold in winter and against the sun and heat in summer. Guaranteed to last a long time, shutters never date and aren't subject to decor whims or fleeting trends.

Perfect in any space, shutters are elegant and luxurious and provide just the right amount of light or darkness when needed.

- Made from Aluminum
- All metal components are rust-resistant
- Available in both even and odd panel numbers
- Large Louvre width of 100mm allows more light and a less obstructive view
